STATISTICS OF WESTERN AUSTRALIA

Area of State—975,920 square miles

Area of Metropolitan Statistical Division—192 square miles

I—POPULATION AND VITAL STATISTICS

Note—For dates subsequent to the latest Population Census the estimated population represents the population ascertained at the Census plus natural increase and recorded net migration since the Census. As complete records of migration are not available, the population estimates so derived are subject to revision when the actual population is ascertained at the next Census. The figures for periods between the 1954 and 1961 Censuses have been revised in accordance with the results of the 1961 Census.

Full-blood aborigines are not included in the following tables. The number on 30th June, 1961, was estimated to be 10,000.

(a) Cargo shipping charges are based mainly on the ton weight of 2,240 lb. but may also be levied on the basis of the ton measurement, a unit equivalent to 40 cubic feet of space. Statistics are compiled accordingly in terms of "tons weight" or "tons measurement". In order to provide a ready comparison, as in this table, of the volume of cargo handled at the several ports or in different periods, the amounts recorded in the two categories have been aggregated. In Table No. 20 details of cargo handled at each port are presented separately on the basis of "tons weight" and "tons measurement".

VII—PRODUCTION

No. 32—Estimated Net Value of Production

Net Value of Production is the sum available for payment of wages, interest, rent, depreciation, other overhead costs, and for the producer's own income and profit. For Primary Production it is obtained by deducting from the value realized at the principal market all marketing costs and the cost of goods used in production (seed, fertilizer, pickling, sprays, dips, fodder, fuel and oil, etc.). For Manufacturing, it is obtained by deducting from the selling value at the factory door the cost of goods consumed in the process of production (*i.e.*, materials used, fuel, power and light, lubricating oil and water, repairs to plant and buildings, tools replaced and containers and packings).

XVI—BUILDING OPERATIONS

No. 52—New Buildings Completed

The figures in this table cover the operations of all builders who accept contracts for the construction of new buildings, "day labour" building by governmental agencies and the activities of "Owner-Builders." The term "Owner-built" refers to buildings actually erected by the owner or under the owner's direction without the services of a contractor who is responsible for the whole job.

The value of land on which the buildings were erected is not included in the values shown.

XVIII—MOTOR VEHICLE REGISTRATIONS

In Western Australia there is no single authority responsible for the licensing of vehicles. The Traffic Branch of the Police Department issues licences in the Metropolitan Traffic Area, which comprises the whole of the Metropolitan Statistical Division and that part of the Swan Division consisting of the Shires of Cockburn, Gosnells, Kwinana and Rockingham in their entirety and parts of the Shires of Armadale-Kelmscott, Mundaring and Swan-Guildford. Outside the Metropolitan Traffic Area each Town or Shire Council is responsible for the licensing of vehicles in its own district.

(a) The population figures contained in this table exclude full-blood aboriginals. The numbers shown for dwellings at the Census of 30th June, 1961 exclude those occupied solely by full-blood aboriginals. (b) For the purpose of this table the term "dwelling" means any habitation occupied, or for occupation, by a household group living together as a domestic unit whether comprising the whole or only part of a building. The term has, therefore, a very wide reference and includes, in addition to houses and flats, a great variety of dwellings ranging from a single-roomed shack to a multi-roomed hotel or institution. (c) The numbers shown for unoccupied dwellings do not represent only vacant houses or flats available for sale or renting. They include week-end and holiday homes, seasonal workers' quarters and other dwellings which were not occupied on the night of the Census, as well as newly-completed dwellings whose owners or tenants had not entered into occupation. (d) Includes unoccupied dwellings. (e) Comprises persons (both passengers and crew) not enumerated elsewhere who spent Census night on ships, long-distance trains or aircraft. (f) See note (g). (g) Represents population at the Census of 30th June, 1961 plus natural increase and recorded net migration since that date; subject to revision after the next Census. Includes migratory population.
